

Logo Animation

Load the page

After 2 seconds, the logo will animate.

All letters will drop into the circle below them in a staggered pattern.

The background colours will alternate over the circles in red then blue.

The logo will stop animating when the '4' reaches the center of it's circle.

Click the Nav button on the header to open the sideNav.

Click Light or Dark Mode.

Observe that the logo text colour remains white once the animation is complete regardless of colour mode.

Reload the page. Resize the window whilst the animation is in progress.

Observe that page elements will not dynamically resize whilst the animation is in progress.  
Once the animation is complete, page elements will resize as expected.

Once the animation is complete, Click the Nav button on the header to open the sideNav and resize the window once again

Observe that the Logo, sideNav and Menu elements dynamically resize.  
Menu elements will remain centralised between the logo and footer.
